**Family Behaviors that Increase Your LGBTQ Child’s Health & Well-Being**

Research from the Family Acceptance Project® found more than 50 family accepting behaviors that help protect your lesbian, gay, bisexual, transgender and queer-identified (LGBTQ) child against health risks like depression, suicide and illegal drug use and help to increase your LGBTQ child’s self-esteem, health and well-being. A little change makes a difference in decreasing your child’s isolation and risk and giving them hope that their family will be there for them.
